

# Introduction

*quality of life in Union County*

## Welcome to Union County Neighbor to Neighbor

We are pleased that you have decided to join this nonprofit organization, founded to give residents of Union County both the practical means and the confidence to live safely and comfortably in their own homes throughout their lives. To achieve our mission, Union County Neighbor to Neighbor provides or helps to arrange for a wide variety of services that meet the needs and expectations of its members.

Union County Neighbor to Neighbor was founded in the spring of 2015 in answer to the question, "What would it be like if we had Community Care Day all year long?" Community leaders, concerned citizens, friends and neighbors began to explore the idea of a Village for Union County.

Today, with the assistance of volunteers and preferred service providers, Union County Neighbor to Neighbor members can arrange for a variety of volunteer based services including rides to stores and doctors' appointments, convenience services, home maintenance and repair. In addition, members can choose from events, activities, and educational programs that the UCN2N sponsors or recommends.

Union County Neighbor to Neighbor has broadened its original mission to serve an optimistic and resourceful constituency of Union County residents determined to take charge of their own lives.

By creating social networks and providing services that respond to current needs, we seek to build a vital organization for the long term. As a member-driven organization, our programs and services will evolve with our members' needs and interests, and our volunteers' abilities.

The UCN2N Volunteer Program is vital to the success of Union County to Neighbor. Both members and non-members have found volunteering to be a rewarding way to meet new people and make a contribution to the Union County Community.

*Our mission is to enhance the lives of residents across Union County through grassroots volunteer-driven supports, services, and programs that enable members to live healthy and meaningful lives in their own homes.*
